TRIUMPH® 5260 + Scissor Hands

by **MBM** CORPORATION

Scissor Hands and TRIUMPH now ensure a seamless cutting process

What is Scissor Hands?

Scissor Hands is a cloud-based software which instantly converts JDF layouts into cut programs. These cut programs increase productivity and profit margins through unequaled automation and integration with your cutting machine, MIS, and prepress systems.

- Customized Cuts
- Time Saving
- Reduce Cuts
- Increase Throughput
- Complete data collection & reporting
- Reduce Paper Waste
- Eliminate Complex Programming
- Reduce labor costs
- Minimize cutting errors
- Integrates with Existing Systems
